BeadBoxers™

COAT CORNER BEAD IN HALF THE TIME.

BEADBOXERS™ corner bead kit for flat boxes

- Install Beadboxers™ and leave on – use flat box for flats, butts, and corners • Make perfect (easy to sand) corners.
- Pays for itself in one job or less.
- Fits on all brands of rectangular-axled flat boxes.
- Works on Metal, Paper-faced and Bullnose corner beads.

*Coat corner bead with jaw-dropping speed using your flat box. Ask about the **BeadBoxers™ Corner Bead Challenge video** or visit our website, www.beadboxers.com to see the difference yourself!*

The BeadBoxers™ Challenge: Boxing Corner Beads vs. Hand Coating

BeadBoxers™

How BeadBoxers™ Work

BeadBoxers™ allow drywallers to 'hook and go' on corner beads, automating the coating of corner bead by using a flat box.

Once BeadBoxers™ are installed, simply hook the box on the corner bead and it will self-guide, making a perfect corner, and saving hours in coating and sanding.

BeadBoxers™ do not need to be removed from the flat box once installed. Seamlessly go from boxing flats to corner bead using the same flat box!

Advantages/Benefits

- Box-quality finishing for all types of corner bead — paper-faced, metal & bullnose
- Simple, one-time installation
- Save hours of time over hand coating
- BeadBoxers™ pay for themselves in a matter of hours
- Apprentice tapers can coat corner beads perfectly with little practice
- Minimize sanding
- Make perfect corners with a flat box
- Install once-leave on flat box for use on flats, butts and corner beads
- Fits on all brands of rectangular-axled flat boxes

Customer Feedback

"This is the invention the drywall world needed! I can't believe how fast coating bead is with a box!! I am AMAZED at the speed.

What a smart idea, "WORTH EVERY CENT"

— KEN GREBE, GREBE'S DRYWALL FINISHING

*BeadBoxers are great; they are a great time saver. You can coat the bead in less than half the time. Not to mention the quality of your finish product. No more hollow bead, perfect bead every time. I would strongly recommend this product to anyone that uses boxes. Easy to install, with the time it saves me I can have another house about half done during the week. **Great product A++++***

— ROBERT 'BUCKY' STADLER, STADLER DRYWALL
